# Finmate Corporate Banking

Accelerate your journey towards truly digital corporate banking

Finmate Corporate Banking is a comprehensive solution suite built on an advanced architecture. The solution addresses the trade finance, lending, syndication, payments, origination, limits, collaterals, treasury, deposits, liquidity management, online banking and mobile banking requirements of corporate banks world wide and enables them to deliver customized offerings to enterprise clients of all sizes.

Finmate has helped corporate banks and financial institution around the world reimagine their business with digital technologies to drive new revenue streams. The solution leverages emerging technologies such as blockchain and advanced analytics to offer impressive benefits to banks and their clients

# Finmate Approach

Offers traditional automation levers such as rule based STP and open APIs across core systems to automate integration and enable seamless information flows.

Leverage enterprise-wide process engines to orchestrate business processes and enhance automation

Design new standards for interoperability for the industry with firms such as BIAN and IFX

Accelerate operations by applying a native robotic process automation tool

## Enabling inside-out and outside-in approach to pursue innovation

Partners

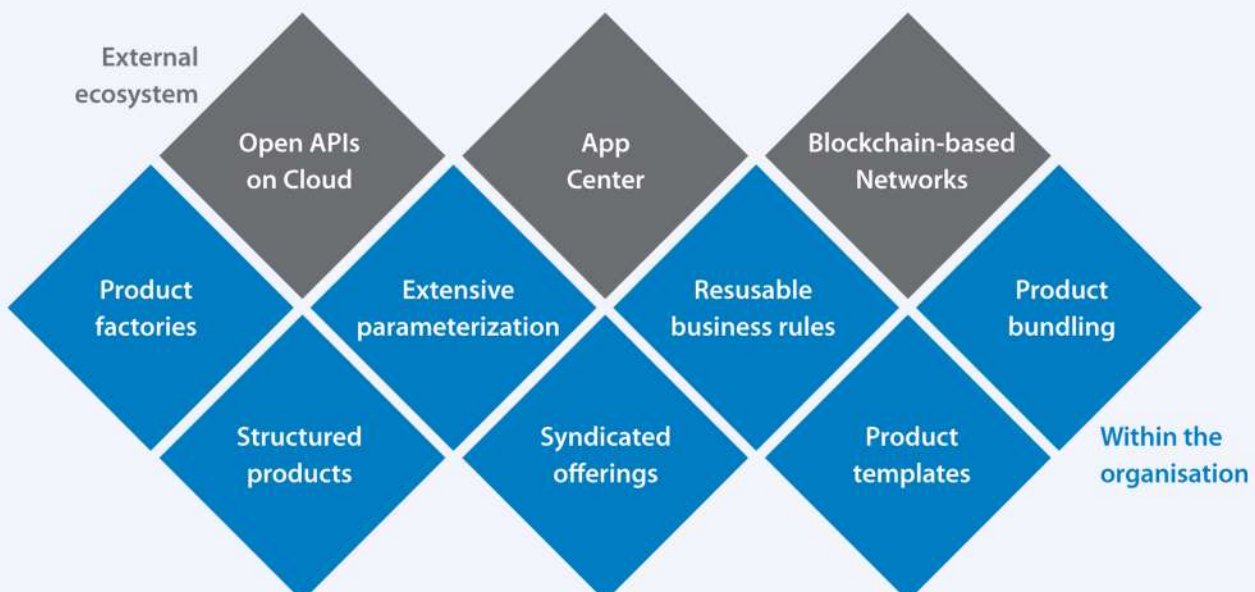

Financial  
Companies

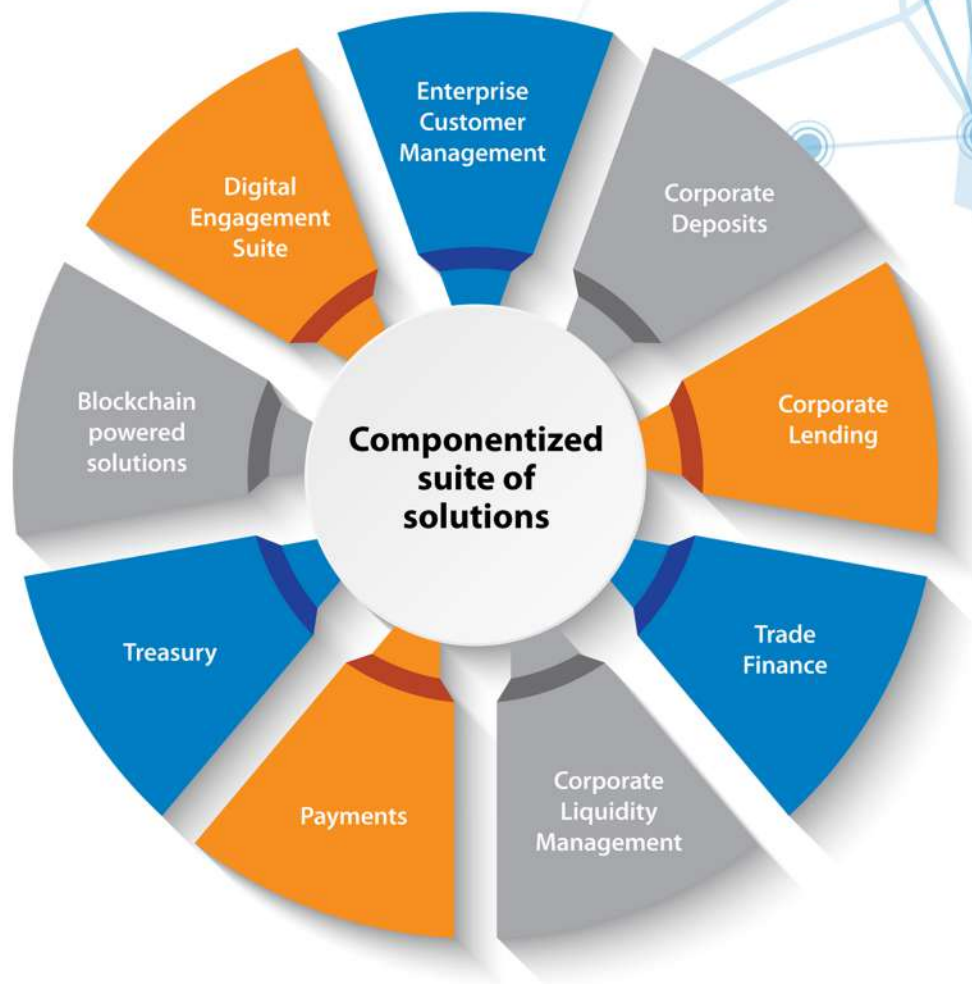

Third-party  
Developers

Corporate  
Customers

## The Finmate promise:

- To empower corporate banks with the agility they need for continuous innovation and accelerated growth.
- To provide a robust platform that offers corporate customers nuanced, contextualized offerings.
- To enable extensive automation, straight through processing and operational excellence.

## About Orbit FinMate

ORBIT IT SOLUTIONS Developed FinMate Bank Software by its vast experienced professionals with full data security. It will help you in concentrating on your marketing and customer management activities by speeding up your work and reducing your operational time. Our Software has a centralized database that is very beneficiary for Bank Companies with core banking operations like Fixed Deposit, Recurring Deposits, Loan to Customers, Monthly Income Schemes, Dividend declarations etc.

FinMate is the industry-leading digital banking solution suite from EdgeVerve Systems, a wholly owned product subsidiary of Orbit IT Solutions. FinMate helps traditional and emerging financial institutions drive truly digital transformation to achieve frictionless customer experiences, larger ecosystem play, insights- driven interactions and ubiquitous automation.
